

Cleansing Granules 125ml tube

Brand: Fleur De Mer

Price: \$43.00

Short Description

Decongesting and cleansing for all skin types. Use as your cleanser or after your cleanser

Description

CLEANSING GRANULES: for all skin types

APPEARANCE AND PROPERTIES. A soft white creamy paste with tiny calcium granules. Provides a very thorough cleanse. These tiny polished granules will help to flush out of the follicles sebaceous and cellular matter which could otherwise cause blackheads, acne pustules and congestion. Ordinary cleansers cannot achieve this. Cleansing Granules are gentle enough to be used every day for a very congested or oily acne skin.

KEY INGREDIENTS

- Calcium Carbonate: polished granules to remove impurities and prevent congestion.
- Rose Essential Oil: Calming fragrance
- Advanced Emulsion: Removes all traces of make - up, pollution and impurities leaving the skin fresh and clean.

APPLICATION. All skin types particularly combination, oily acne skins and T - zone

areas. Massage the granules very gently into wet skin with moist fingertips avoiding the eye area. Concentrate on the nose, forehead and chin. Rinse with warm water. Ideal to use in a second cleanse of your facial procedure.

Our advice: ideal for men who suffer from ingrown hairs and for bikini areas with ingrown hairs, use daily
