Keeps body trim and firm when slimming

Description

For all overweight and cellulite sufferers - Just 1 week shows results

3 STEPS TO LOOKING GOOD AND FEELING BETTER WITH A BEAUTIFUL BODY AND A GUARANTEE OF BETTER HEALTH BY LOSING EXCESS WEIGHT NOW IMPORTANT ADVICE FOR YOUR OVERWEIGHT CUSTOMERS:

We are a seriously professional skin care company and we want to be perfectly honest.

Neither this serum nor any other product can be merely applied to the skin to create weight loss. But this **ACTIVE SLIMMING SERUM** has been proven to play an important part in a slimming or /and cellulite routine the details of which are briefly described as follows and which can be conveyed to your customers.

DIET is essential. A qualified professional should advise in recommending suitable foods low in calories, with a low GI index and low in fat content particularly saturated fat. Suitably smaller helpings at meal times should also be considered.

EXERCISE is also important and professional guidance can be obtained for a daily or at least a 3 times weekly routine. **ALGOLOGIE SEAWEED BODY WRAPS** followed by **ACTIVE SLIMMING SERUM**. Once or twice weekly as directed with a brisk exfoliation with **EARTH SEA SAL TS** or **SEA SALT BODY SCRUB** before you start. Finish off with a massage with the **SERUM** together with a recommendation to apply it twice daily at home on the troubled areas. This massage will contribute to faster results and also very

importantly prevent the common skin slackening while losing weight and instead keep the skin firm, smooth, healthy and attractive.

These three steps should begin to show a weight loss in just 1 week, a more beautiful body and a real feeling of "well being" because of losing that excess unhealthy weight.

KEY INGREDIENTS

Laminaria Hyperborea Seaweed: reduces adipocytes (fatty tissue) size and reactivates its natural lipolysis (breakdown). It also has an impressive draining action which leads to waste elimination thanks to better micro circulation. This ingredient is particularly valuable for cellulite (oversized adipocytes). Caffeine: A powerful widely used and recognised anti-cellulite and slimming agent. Helps to burn fatty deposits. Also helps drainage which limits the storage of fat in the cells.

Suaeda Maritima: Boosts the action of caffeine on fatty tissue particularly on thighs with resistant cellulite. Twice as effective as caffeine for "orange peel" skin.

APPLICATION

Apply morning and evening in upwards movements every day on the desired areas, eg hips, stomach, buttocks and particularly flabby thighs. Exfoliation with Sea Salt Body Scrub once or twice weekly will quicken the results.
