Short Description

NEW! With all natural exfoliants for instantly silky soft and healthy skin with a natural glow. Also with mild menthol to leave skin cool and refreshed

Description

NATURAL GRANULAR PEEL

Totally natural exfoliant for all skin types

APPEARANCE AND PROPERTIES

A thick white cream with natural exfoliating Jojoba Oil granules and a very slight fresh menthol fragrance. It leaves skin instantly soft, silky and healthy with a youthful glow. Also with mild menthol it gives the skin a cool refreshed feel. Being natural the granules are perfectly safe for our environment and waterways.

KEY INGREDIENTS:

Natural Jojoba Oil Granules: Scrub away dead skin cells and impurities. Clean out blocked pores and follicles.

Menthol: A mild concentration to leave skin cool and refreshed.

APPLICATION: Gently apply and scrub skin for about ½ minute. Rinse well. Avoid contact with eyes. Use about twice weekly or whenever you want a specially beautiful look with a refreshed and youthful glow. Wetting skin, or adding water, will ensure less friction for more sensitive skin.
