Short Description

A quick fix to firm and revitalise the eye area

Description

FIRMING FLASH “EYES”

For Eye Area

New formula .. to provide for the first time ... an instant skin treatment for that very special occasion

15ml airless pump pack

APPEARANCE AND PROPERTIES

The original Firming Flash for Face and for Eyes have been discontinued and replaced by these totally reformulated products containing a brilliant new energizing complex to fight the look of tired skin instantly. No waiting. INSTANT ACTION. As you smooth this fluid gel over your face or eyes you will feel your skin becoming softer, smoother and firmer. Fine lines will be noticeably reduced and you will experience the lavish hydration and a refreshed new look.

LONG TERM BENEFITS: Used regularly both products will keep your skin intensely hydrated and refreshed permanently.

KEY INGREDIENTS

Hyaluronic Acid: Very high concentration. It restores youthful resilience to skin by

simply adding to the natural supply found in our skin. It therefore plumps up and intensely hydrates skin.

Niacinamide (Vit B3) : Extremely valuable. It works by increasing the biosynthesis of ceramides and other stratum corneum lipids. This improves the skins epidermal barrier which protects against trans epidermal water loss.

Hydrolysed Rhizobian Gum: Its polymeric structure provides a better tightening effect than other commercially available serums.

Cyclopentasiloxane: Leaves skin instantly and noticeably soft and smooth.

APPLICATION

All skin types needing instant and ongoing hydration and firming. For an instant boost smooth sparingly where required until almost but not completely absorbed. For ongoing results apply as above twice daily.
