Brand: Algologie

Price From: \$49.00

Short Description

Light texture. Very nourishing and firming

Description

EYE CONTOUR GEL Fraicheur des Yeux Gel
particularly for younger skin

APPEARANCE AND PROPERTIES

A golden gel with a delicate very fresh fragrance. Because of the extreme fineness and mobility of the tissues, the eye contour is a very fragile zone which needs specific treatment. It is the first place for the appearance of fine lines and premature ageing etc. It also reveals signs of fatigue, puffing and dark circles. This gel from Algologie has been specially formulated to prevent these signs and give you a fresh and radiant complexion again. It is also particularly light in texture and very firming and hydrating thereby producing a more youthful looking appearance.

KEY INGREDIENTS

Adjusted concentrations of the 3 ingredients creating the exclusive natural Algo3 Complex: Chondrus Crispus: The seaweed extract providing proven rapid hydration. It also increases the water concentration in the epidermis. Gulf Stream Seawater: Pure and fresh with lots of natural vitamins and minerals to nourish and remineralise the skin. Alaria Esculenta: Another seaweed extract with anti-oxidant properties to protect against

free radicals.

Heterotheca Flower Extract, Paullinia Seed Extract and Ruscus root extract: Combine to firm, freshen and moisturize the eye area.

Pelvetia Canaliculata, A brown seaweed. Exceptional moisturising properties. It helps reduce and prevent the appearance of fine lines.

APPLICATION

Apply gently after meticulous cleaning. Work the gel in with light touches and pressure points. Right after application you will feel a fresh and soothing sensation. NEVER RUB IN.
