

Caress Peel 75ml

Brand: Algologie

Price: \$60.00

Short Description

Very gently but effectively exfoliates.

Description

SOFT CARESS PEEL Peeling Caresse

APPEARANCE AND PROPERTIES

A light cream with white and green exfoliating pearls. The Soft Caress Peel special formulation will exfoliate and remove dead cells from even the most sensitive skins without aggression or irritation. It is a particularly gentle peel thanks to the combined action of two pearls: green pearls of Jojoba Esters - perfectly spherical, they melt completely under the massage effect while depositing a softening film of Jojoba Esters, that do not irritate the skin; and white pearls of Jojoba Esters – they do not melt completely, thus prolonging the very gentle exfoliating effect. The pearls are incorporated into a cream containing: marine algae specific actives for sensitive skins that offer an effective alternative to chemical, mechanical and thermal abrasives; and Aloe Vera that moisturises, hydrates and protects. After the peeling, the complexion is clarified, fresh and bright. The skin has a silky, smooth and uniform complexion. It is an excellent preparation for the skin to accept maximum benefits from the Caress Comfort Mask.

KEY INGREDIENTS

Laminaria ochroleuca extract: see “Sensitive Skin Introduction”

Adjusted concentrations of the 3 ingredients creating the exclusive natural Algo3

Complex:

Chondrus Crispus: Gulf Stream Seawater: Alaria Esculenta:

White Pearls of Jojoba Esters: Perfectly spherical, they efficiently exfoliate without irritating. Green

pearls of Jojoba esters melt in the course of the massage, which ensure a progressive exfoliation.

Corn Oil: Modified by a natural process. It reduces or suppresses reactions caused by the aggressions subjected to sensitive skin.

Shea Butter: Very nourishing and softening.

Aloe Vera: Legendary for its unique properties to calm and moisturise dry, irritated or damaged skin.

Cornflower Extract: Its soothing properties make this extract an important active for gentle cosmetic products.

APPLICATION

Its composition allows for weekly use on even the most fragile epidermis. Apply in fine layers on the face,

massage with moist fingertips for 2 to 3 minutes, the green pearls will melt under your fingers. Rinse with

fresh lukewarm water and dry the skin without rubbing.

Our advice ~ can be used more regularly on skin that is not seriously sensitive.
