Sea Clay Purifying Mask 50ml

Brand: Algologie

Price From: $59.00

Short Description
Absorbs excess oil, impurities, etc

Description
PURIFYING MASK (Masque Pureté)
APPEARANCE AND PROPERTIES
The ‘Purifying Mask' is a white to grey clay-based mask that has the nickname pimple-stopper.
It performs three indispensable functions to treat oily skin:

- It effectively absorbs excess sebum and oily impurities
- It purifies and tightens dilated pores
- It decongests sallow oily skin.

It is to be applied only on the oily areas and pimples on the face and other parts of the body where problems are present. This mask is extremely active and must be handled carefully. It is therefore, recommended to avoid sensitive zones such as the eye contour, lips and sensitive cheeks of those with combination skin.
Its remarkable effectiveness is due to an association of the purifying and sebum-regulating Algopure Complex, the re-balancing effects of Marine Plants and the purifying properties of Yeast bio-membranes. From the first application the complexion is clearer, the skin recovers its matte finish and healthy colour and little pimples dry up.

KEY INGREDIENTS

White Clay: A gentle clay with an excellent capacity to absorb, deep cleanse and purify the epidermis.
The Algopure Complex
Marine Plants: Rich in oligo-elements and minerals to re-balance the epidermis.
Yeast Bio-membranes: Deep cleanses the epidermis particularly the lipidic residues that clog the pores of the epidermis.

APPLICATION

Oily skin types. Apply a thin layer on the face avoiding the eye contour and any sensitive areas. Let activate for 10 minutes and rinse with cool water. If any tingling or stinging occurs rinse immediately.
Our advice: apply at night on little pimples to help them quickly dry up.
