

Clarifying Serum 10 x 3ml vials

Brand: Algologie

Price: \$70.00

Short Description

Concentrated, an intensive boost

Description

CLARIFYING SERUM (Sérum)

concentrated, intensive booster

APPEARANCE AND PROPERTIES

A soft, white milky serum easily absorbed. This serum contains many of the highly effective ingredients in the Clarifying Range but in higher concentrations. The Tocopheryl Acetate combines with natural Grapeseed Oil to provide very powerful anti-oxidant and clarifying properties. A high percentage of Grape Fruit Extract with its AHA properties helps shed dead skin cells with pigmentations as well as ensuring the 28 day desquamation cycle which brings clear epidermal cells to replace them. Saxifraga provides a brightening effect and higher than usual concentrations of Vitamin C (Sodium Ascorbyl Phosphate) and Sodium Hyaluronate ensure a highly active serum.

KEY INGREDIENTS

Tocopheryl Acetate and Grapeseed Oil: Strong anti-oxidant properties. Both reinforce the clarifying and anti-ageing properties.

Mulberry Extract: A brightening effect on skin.

Grapefruit Extract: AHA properties in shedding dead skin cells with pigmentations as

well as ensuring the 28 day desquamation cycle which brings fresh, clear epidermal cells to the surface.

Sodium Ascorbyl Phosphate: Stable form of Vitamin C. Has a direct effect on the skin's clarity, evenness, colour and tone. Strong anti-oxidant.

Licorice Root Extract & Saxifraga Samentosa Extract: brightening effect on the skin. Clarifying and anti-ageing properties.

Sodium Hyaluronate: Hydrates skin on an ongoing basis and maintains moisture in the skin.

Ascophyllum Nodosum: Seaweed extract with natural vitamins and minerals from the sea.

APPLICATION

Apply at night to a perfectly cleansed skin. Anything else to be applied should go on only after it is thoroughly absorbed. Those with oily or combination skins should use the serum on its own.

One box of the serum can be used to speed up the clarifying results. Alternatively it can be used on a regular basis throughout the year.
