Description

LIFT & LUMIERE INTENSE EYE BALM

APPEARANCE AND PROPERTIES

A soft white cream especially formulated for the very fragile, dry, stressed and thin area of skin around the eye contour. It noticeably reduces all signs of aging around the eyes particularly in the over 40's. Fine lines, dark rings and most effectively puffy bags under the eyes while leaving the eye contour instantly younger looking, brightened and radiant. Its powerful action is due to the combination of seaweeds extracts from Algologies marine biotechnology research with highly innovative ingredients intensely research for their efficacy.

STAR INGREDIENTS

Aldavine: A marine polysaccharide extract reproduced from Algologies biotechnology which fights vasodilation and capillary hyperpermeability responsible for the dark circles so often seen around the eyes.

Caffeine: Stimulates the skin in such a way that puffy bags under the eyes are noticeably and rapidly reduced. It is obtained as a by-product of decaffeinated coffee.

Shea Butter: Intensely nourishes and hydrates skin.

Tocopheryl Acetate: Important Vitamin E anti oxidant.

Lanachrys: An African plant extract to help restore the skin barrier and protect against dehydration.

Seacode : A polysaccharide extracted from a hostile marine living environment. Also helps restore the skin barrier and protect against dehydration.

Mica : Silicate minerals which are ground and used to create radiance and a glow in the skin by being a light reflector. Very popular in cosmetics.

APPLICATION

Massage morning and night into a perfectly cleansed eye contour and lightly smooth between the eyebrows.
